

## Lemonade Studio

### Testimonial

The image of the newly created Rolls brand was handed over to the Lemonade Studio company, which has developed the visual identity, professional website and promotional video along with additional materials, that enrich our responsive webpage. Comprehensiveness, flexibility and professionalism are the features that assure the quality of work done by this team. The wide portfolio of services provided was an additional advantage for us, thanks to which we could entrust all of our needs to one agency. We strongly recommend Lemonade Studio as a reliable and long-term partner in business.
